Claudia Otero

Minneapolis, Minnesota | (651) 276-9238 | claudia.otero88@outlook.com | claudiaotero.com

EDUCATION

University of Wisconsin–Madison, Madison, WI — Sep 2021 - May 2025
Bachelor of Science in Data Science | Certificate in Computer Science

WORK EXPERIENCE

M.A. Mortenson Company, *Associate Data Scientist,* Minneapolis, MN — Jun 2025 - Present

- Develop end-to-end FastAPI applications for enterprise estimating and project planning, including a platform used across project pursuits that generates baseline estimates in 1 minute compared to a previous 4-hour manual process.
- Build automated ML workflows in Microsoft Fabric, including ingestion, feature engineering, model training, experiment tracking, evaluation, and production handoff.
- Engineer scalable data pipelines using Lakehouses, Spark notebooks, SQL, Dataflows Gen2, API endpoints, and semantic models for analytics and production applications.
- Deploy internal analytics apps and APIs through Azure DevOps, Docker, CI/CD pipelines, and cloud-hosted web app infrastructure.
- Build AI agents in Microsoft Fabric and Copilot Studio to help teams query governed company data through natural language and reduce dependency on manual reporting workflows.
- Develop optimization software that converts PDF-based project inputs into annotated project-level drawing outputs in 20 minutes compared to 4+ hours manually.
- Partner with estimators, project teams, software developers, and stakeholders to translate business workflows into practical ML, BI, optimization, and AI tools.
- Manage and mentor an intern supporting data science, automation, and analytics initiatives.

M.A. Mortenson Company, *Data Analytics & Innovation Intern,* Minneapolis, MN — May 2024 – Jun 2025

- Developed the first version of an internal estimating application using Flask, Python, feature engineering, model training, evaluation, and Azure DevOps deployment.
- Built Power BI dashboards and semantic models that automated reporting and connected historical project data to business insights.

E.A. Sween Company, *Continuous Improvement Specialist,* Minneapolis, MN — Jun 2023 – May 2024

- Built an automated Excel mass balance tool connected via ODBC to Oracle production and waste data to track material flow, validate BOM standards, and identify waste reduction opportunities.
- Analyzed production and operations data using R to uncover process inefficiencies, material loss trends, and cost-saving opportunities.
- Developed Tableau dashboards to communicate operational performance and support data-driven decisions.

Stranded on State, *Head of Technology,* Madison, WI — Jan 2023 – Jun 2024

- Maintained and improved a GitHub-hosted website for a 30,000+ follower student media brand using HTML, CSS, and GitHub version control.

LEADERSHIP EXPERIENCE

University of Wisconsin–Madison, *Linear Algebra Tutor*, Madison, WI — Sep 2024 – May 2025

- Tutored students in matrices, vector spaces, transformations, and applied linear algebra concepts used in computing and data science.

The Leukemia & Lymphoma Society, *Campaign Manager,* Minneapolis, MN — Dec 2019 – Feb 2020

- Led donor outreach, volunteer coordination, and event planning, raising $27,000 for the 2020 Student Visionaries of the Year campaign.

SKILLS

Python, SQL, R, PySpark, scikit-learn, MLflow, Microsoft Fabric, Power BI, FastAPI, Docker, Azure DevOps, CI/CD, Git
